

TABLE 2A - KBCB-WPSQ - Common name of bird species found at given coded location for bird observations at the ten surveys conducted for 2013 (Alphabetic order)

A '1' in the column indicates at least one bird of the species named for that row was observed at the coded location indicated. See Table 1 for location details for the code representing that particular survey.
Seq is the sequence number for the bird from original order of Christidis & Boyles Order list. Number of different species observed at least once over 2013 was 110.
